Besse Forest Products Group
is currently recruiting for
Log Yard Supervisors

Besse Forest Products is a leading manufacturer of hardwood veneer, lumber, and plywood. We have eight lumber mills and six veneer mills located throughout Northern Wisconsin and the Upper Peninsula of Michigan.

We are currently recruiting a successful candidate for various Log Yard Supervisor positions within our company. The Log Yard Supervisor is primarily responsible for checking and scaling logs that come in to the log yard. The position is also responsible for organizing the logs in the yard and keeping accurate inventory of logs coming in and going out of the yard. This position serves as a training ground for the Company's future Log Buyers, so the Log Yard Supervisor will have the opportunity to work closely with Log Buyers and accompany them when cruising timber and with other aspects of log buying.

A bachelor degree in Forestry or related field is required, with prior experience in the forestry industry preferred. Log Yard Supervisors are considered for vacant Log Buyer positions, so the successful candidate must have a desire to become a Log Buyer within Besse Forest Products Group.

To apply, please e-mail, fax, or mail your resume and cover letter to:

Elizabeth H. Zorza
